LOST—Light bay horse mule, about 7 years old, 14 hands high, no mark. Was seen on Sandy Point road. Finder please return to W. E. Battle. Liberal reward.

FOUND.

FOUND—Pair of ladies' gloves and handkerchief. Owner apply at this office.

ROOSEVELT-BARNES TRIAL DRAGS ON

Time of Court Occupied in Reading Various Letters and Telegrams.

[By Associated Press.] Syracuse, N. Y., April 27.—At the Roosevelt trial today a telegram was read from Thomas Platt, urging Col. Roosevelt to sign the bill exempting from the franchise tax, railroad grade crossings, because "our friends of the New York Central and Senator Dewey are anxious." Col. Roosevelt's reply was that he received this telegram "too late."

Replying to Platt's urgings for Roosevelt to attend the commission meetings in 1900, Roosevelt telegraphed Platt: "All right. In view of your second telegram I will come, but you are not an easy boss."

Suspicion follows close in mistrust. —Lessing.

AS THE NEWS BREAKS

[By Associated Press.] GUTHRIE, Okla., April 27.—Extensive preparations have been made here for the opening here today of a three-day reunion of the Scottish Rite Masonry of Oklahoma jurisdiction. The visitors will be entertained in the Masonic Temple here, and all classes have joined in preparing a welcome for them.

TERRELL, Tex., April 27.—Preliminary surveys are being made of the twelve leading market roads from Terrell toward their permanent improvement with the \$300,000 bond issue voted last year by the citizens of the Terrell commissioner's district for this purpose.

WACO, Tex., April 27.—Some of the most famous Sunday school workers and orators have been secured for the Central Texas Wesley Bible Class Federation's annual meeting here tomorrow and Thursday. In the Central Texas district, which, roughly speaking, is bounded by the cities of Fort Worth, Waxahachie, Corsicana, Mexia, Taylor, Georgetown, Brownwood, Cisco and Graham, there are some three hundred Wesley Bible classes in active operation. The conference is due to begin here today with devotional services led by J. A. Whitehurst, presiding elder of the Waco district of the Methodist Episcopal Church, South.

WEATHERFORD, Tex., April 27.—The district conference of the Methodist Episcopal Church, South, convenes here today for a three-day session, with Bishop James H. McCoy of Birmingham, Ala., due to preach the sermon tomorrow. Dr. W. D. Brafield, editor of the Texas Christian Advocate, and a former pastor of Courts Memorial Church, where the conferences are being held here, will preach one of the sermons, and the Rev. Drs. Samuel H. Ray of Dallas and W. B. Andrews of Waxahachie also are on the program.

DENTON, Tex., April 27.—Today and tomorrow have been set aside as "clean-up" days for Denton, and many of the leading organizations here have been working to make the days a success.

BRAZOS RIVER FLOOD SITUATION

Rivers Slowly Falling and Submerged Lands Gradually Coming Out.

The flooded condition of the Brazos and Little Brazos rivers is somewhat improved today, according to reports received from those districts.

They are reported to have fallen considerably around Valley Junction and at present the red rise from Waco has not shown up in this part of the State.

The International & Great Northern Railroad is now reported open from Palestine to San Antonio on the main line of the road and the trains can be run as far south on the Waco branch as High Bank.

The Big Brazos river is also reported to be falling slowly all along the Brazos County line as far down as Koppe Bridge, and the overflowed lands are slowly coming out.

The Bryan train service has not been improved in the last two days, and at present the International & Great Northern train service is still suspended, and the Houston & Texas Central only runs one train each way a day. The train goes as far south as Millican and is turned there on account of the high water at Neleva Junction.

The Courtney bottom is reported still under water and the trains on the Houston & Texas Central are only run out of Houston as far north as Hempstead.

The postoffice reports that no locked mail has been received in Bryan today and that the daily papers out of Houston were detained from Houston to Mexia on the Trinity & Brazos Valley Railroad, where they were transferred to the Houston & Texas Central.

The river at last report had fallen about eight inches at Jones Bridge, and about four inches at Koppe Bridge, and was still falling slowly at both places.

The planters are hopeful that it will be back in its banks by tomorrow night at the latest if it continues to fall at its present rate. The amount of damage to the crops cannot be told yet, but Judge Maloney and County Farm Demonstrator A. W. Buchanan made a special trip to the river today to see what results the flood has had on the crops where it has gone down. It is hoped that only a small percentage will have to be replanted.

NEW YORK DAY BY DAY.
By CHARLES HENRY ADAMS.

New York Leads as Usual.

New York is not so badly off after all. Vital statistics prove the truth of this assertion. There is no city in the State that is quite so well off. The death rate in the metropolis for last year was 14 per 1,000 population, while the rate of the entire State, including New York City, was 14.8. Forty-one out of the fifty-one up-State cities have death rates higher than that which prevailed in the metropolis. Concerning births, the table shows that the Bronx is well imbued with Rooseveltian doctrines, for it produced 23.7 babies per 1,000 of its population, as against 23.7 for the entire State.

The Craze for Buttons.

Perhaps the most significant feature of New York's fashion this year is the change in the feminine silhouette. No longer may it be compared to a string bean or a knitting needle. It is rather a cone, and the woman who wears the small, round Ganggarry hat looks not unlike the clothes pin doll, staple article at church fairs. The narrow skirt is as definitely and emphatically out as the short skirt is in. There seems to be only one choice between degrees of wideness. The circumference of every skirt is increased, but this increase is brought about in various ways. Another thing noticeable is that the button factories have been working overtime. Buttons are everywhere. Dozens of them are used on the suits. There are about three dozen buttons on the coat tails and some of the coats have a whole sleeve full. There are other rows reaching from the shoulder down the backs and fronts of the coats. The military note is strongly sounded.

Hoboes Expert Chicken Raisers.

Jeff Davis and his jungle gang, ousted from the Hotel de Gink, are going to raise poultry on Long Island, where a farmer has offered them the use of 450 acres for that purpose. The ginks will start into the business under more favorable conditions than do persons who are hit by the hay fever. They cannot lose any money. Anyway, they ought to do well, even without land. I've heard that hoboes are experts in the art of "raising" chickens.

Brotherly love, it may be added, isn't as common as several other well known varieties.

Perhaps your rights are being trampled upon, but it is sometimes very expensive to test the constitution.

WEATHER FORECAST

(Copyrighted, 1914, by W. T. Foster.)

Washington, April 24.—Last bulletin gave forecasts of disturbance to cross continent April 28 to May 2; warm wave April 27 to May 1; cool wave April 30 to May 4. Temperatures of this disturbance will average about normal, the storms will be of greater than usual intensities or force; rainfall will be from about normal to excessive in all Southern and Southeastern sections of the continent; frosts will occur about as usual for the season, reaching meridian 90 not far from May 3, a little earlier west of that line and a little later east of it.

Next disturbance will reach Pacific coast about May 3, cross Pacific slope by close of 4, great central valleys 5 to 7, Eastern sections 8. Warm wave will cross Pacific slope about May 3, great central valleys 5, Eastern sections 7. Cool wave will cross Pacific slope about May 6, great central valleys 8, Eastern sections 10.

Temperatures of this disturbance will average about normal and frosts will be about the average of the season, reaching meridian 90 near May 9. Rains will continue to fall in Southern and Eastern sections with a tendency to drouth in the Middle Northwest.

Crop weather of first half of May is expected to be from fair to good but some parts of the Middle Northwest, in and around the Dakotas, will not get sufficient rain. But a considerable part of that section has enough moisture in the ground to carry it through May in good condition. The most damaging part of the May drouth, in the Middle Northwest, is expected from May 10 to 17.

We insist that all Northern sections of the agricultural world will have a deficiency of moisture during the crop season of 1915. But it should be remembered that in a large proportion of those Northern agricultural sections the soil was well soaked with water before the freeze last fall and then was frozen deeply, many places as much as six feet. Where that condition prevails not much rain will be required to make the crops.

On that matter of a general deficiency of Northern rains most interest centers in our Middle Northwestern States, Middle Canada and all of Russia. We are of the opinion that parts of those countries that missed the rains last fall will be damaged by the drouth.

Great prosperity is assured for this continent except where war exists. The time is at hand for this country, this continent, to lead in the world's industries, progress and general welfare. Now is the time, at the beginning of the crop season, for everyone to do their best in producing the things that the human race must have. Strike while the iron is hot, make hay while the sun shines, profit by the misfortunes of other Nations. It is not our fault. Follow the advice of these bulletins and you will be happy when the harvests are all garnered.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the woman's constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

Camel

Compare Camels with
cigarettes you like best!

That's a clean-cut invitation to smoke a new cigarette made of a blend of choice Turkish and choice Domestic tobaccos. A cigarette that's more to your liking than either kind of tobacco smoked straight!

Camels are truly delightful. The blend of choice tobaccos makes them so. They can't sting your tongue, or parch your throat, or leave any unpleasant cigarette after-taste.

You "compare Camels with cigarettes you like best," because we know what goes into Camels—and the enjoyment that comes out to you!

Camel packages contain neither premiums nor coupons. Smokers do not look for them, because they realize the cost of the choice tobaccos blended in Camels prohibits their use.

Know for yourself today just where you stand on cigarettes! Camel Cigarettes sell 20 for 10c.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Cigarettes

If your dealer can't supply you with Camels, send 10c for one package or \$1.00 for a carton of ten packages (200 cigarettes), sent postage prepaid. If, after smoking one package, you are not delighted with Camels, return the other nine packages and we will refund your dollar and postage.
